Having its debut in 2007, this "flashy" piece often uses the floods for the vocals and produces great contrast and very bright flashes on the house. This is the first time this piece was used with my LED fixtures (instant on/off), and the flashing effect is phenomenal. The LED units are fast enough they could be used for strobing effects. This song gets heavy play during the show and occurs more frequently than other pieces.

Over the course of the journey, Mickey plays with powerful water jets, encounters a dragon, a witch, and a magic mirror. However, when the evil witch Magnificent tries to take over Mickey's dreams, it quickly becomes a battle between good and evil. The sequence features many simulated special effects including fire, smoke, water jets, fireworks, specialized theater lighting, projections, video, laser, motion lights, and an atomic strobe.
